MILWAUKEE OFFICE-SEEKERS DECIDE BY CHANCE.

Shake Dice or Cut the Cards—Sensational Divorce Case at Oshkosh—Marriage of Ex-Congressman Caswell—News Notes of Interest from Various Sections.

All manner of plans are being devised by the democrats and populists of Milwaukee, to make way for the fusion of the two parties in the different wards of the city. In some instances the choice of the candidate for alderman or supervisor is decided by "one dump of the dice" or by "horses," "old sledge" and games of "sixty-six." In the ninth ward C. P. Merriman, populist nominee for supervisor, and Julius Schuengel, his democratic rival, settled their difficulty by "cutting the cards" in George Himmelstein's saloon. Schuengel lifted a ten of clubs and Merriman pinched up an ace of hearts and won the prize.

LUCIEN B. CASWELL MARRIED

Former Congressman Wedded at Fort Atkinson Yesterday.

Fort Atkinson, Wis., March 11—A wedding of unusual interest took place in the Universalist church yesterday, the contracting parties being Lucien B. Caswell, for fourteen years a member of congress from this district, and Miss Anna A. Rogers, eldest daughter of the late Rev. Barton F. Rogers. The ceremony was witnessed by relatives and was performed by a cousin of Miss Rogers, the Rev. Samuel J. Rogers, of Minneapolis.

SUES FOR ABSOLUTE DIVORCE

Prominent Neenah Woman's Complaint Creates a Sensation

Neenah, Wis., March 11—Mrs. Helen Schimpf has brought suit for divorce from her husband, H. O. Schimpf. Although facts of the case are not generally known the affair will create a sensation on account of the prominence of the defendant, who is a leading business man. The complaint involves a conjugal order restraining the defendant from controlling the personal liberty of plaintiff or their children. Also restraining him from encumbering or selling his property during the action. Plaintiff alleges that he is worth between \$30,000 and \$50,000. The grounds for divorce are cruel and inhuman treatment and plaintiff asks for suitable alimony.

Death of David S. Comly.

Madison, March 11—David S. Comly, secretary of the state board of control, died at his home here last evening, from consumption. Mr. Comly had been secretary of the state board and of similar boards which preceded it for nearly twenty years. For many years he had charge of the records of all the state institutions, and the strain of the work broke down his health. He was a native of Dayton, Ohio, and came of a Quaker family. He was the founder of the Dayton Journal.

HOG CHOLERA IN WALWORTH

Disease Has Broken Out and is Creating Much Havoc

Hog cholera in Rock county is a scarce disease these days, and veterinary surgeons throughout the county say there are but few traces of it to be found. The disease but a few months ago was creating havoc upon the farms, causing a loss of thousands of dollars. Near the north Walworth county line the disease has broken out within the past few days, and in a locality that has never been affected before. The disease seems to thrive just as vigorously in the winter as in the summer.

BISMARCK IS A HELPLESS CRIPPLE.

PRINCE BISMARCK.

Berlin, March 11—[Special]—It is reported that Prince Bismarck has lost the use of both of his legs and is a helpless cripple.

This intelligence no doubt presages the early dissolution of the great German statesman. He was born in Schoenhagen, Prussia, on the 1st of April, 1815, and is consequently almost 83 years old. He received his education at the universities of Gottingen, Berlin and Griefswald, entered the Prussian landtag in 1847 and became a leader among the reactionists. In 1851 he was appointed Prussian ambassador to Russia, and in 1856 went in a similar capacity to France. In the latter year he became minister of public affairs and had a long constitutional struggle with the landtag. In 1865 he was created a count and in 1867 became ambassador of the North German Confederation. During the Franco-Prussian war he was, perhaps, the most conspicuous figure in Europe and labored unceasingly to create complete German unity. In 1871, after the union of the German states, he became the first chancellor of the empire, and was created a prince of the realm by Emperor William I. He presided over the Berlin conference of 1878 and formed the triple alliance that has for so long been the arbiter of the destinies of Europe. In March, 1890, the present emperor having slighted him, he resigned the offices of chancellor, president of the Prussian ministry of state, and minister of foreign affairs, receiving from the emperor the title of Duke of Lauenburg. He has since lived in retirement at his estate at Friedrichsruhe.

M'KINLEY KNOWS ALL ABOUT IT NOW

VERDICT OF THE MAINE INQUIRY IN HIS HANDS

Positive Proof That the Explosion Was Caused by Spanish Agencies—Dons Have Not Been Able To Buy War Ships—Much Defiant Talk.

New York, March 11—[Special]—The Journal this morning publishes a Washington dispatch which asserts that the president has heard from Judge Advocate Marx of the board of inquiry, and he gave a forecast of the report. The court will decide, it is said, that a mine placed in Havana harbor by Spanish officials and fired by a wire running to a Spanish fort caused the destruction of the Maine. Alleged conclusive proof to this effect was shown today.

MAY BE MADE PUBLIC SOON

Maine Board of Inquiry Report to Be Given Out Soon

Washington, March 11—[Special]—Pressure is being brought to bear to have the president take the public into his confidence at once regarding the board of inquiry's discoveries, and it is probable he will inform congress of the facts immediately after the senate reconvenes Monday.

SPAIN MUST KEEP THE PEACE

Warned That She Must Concede Demands of the United States.

Chicago, March 11—Walter Wellman writes from Washington to the Times-Herald what he claims to be semi-official information. Spain, he says, is under bonds to keep the peace. Information of the most reassuring and important nature has reached our government from abroad. It is to the effect that Spain's creditors, including the Rothschilds, have served notice upon the Sagasta cabinet that there must be no war with America.

Quite as important is the information given from the same source, that the best thing Spain can do is to accept the terms offered by the United States concerning the Maine disaster and the future of Cuba.

Spain is divided by her creditors to accept the inevitable, to give up Cuba on the best terms that can be made, to avoid war and to turn the energies and the money that a war would cost into an effort to rehabilitate her sadly demoralized finances, commerce and public works.

If the government at Madrid disregards these warnings and makes war Spain will be left to raise her own funds from among her people. Every bank in Europe, every private lending establishment will close its doors against her.

The natural tradition of the Spanish people and their rulers is to fight rather than to yield, to save honor if they can save nothing else. But it is now being pointed out to the queen regent and her advisors that if they accept the inevitable peacefully, and trouble comes through the machinations of the pretender or a social uprising, the government will have the powerful assistance of other nations, whereas if in desperation or mistaken ideas of duty she breaks the world's peace, she will be without support or sympathy.

battle of Rich Mountain, was appointed to command the department of Ohio; won a victory at the battle of Carnifax Ferry, was present at the siege of Corinth, fought and won the battles of Iuka and Corinth; was transferred to the army of the Cumberland, and gained the battle of Morfreesboro. His reverse at Chickamauga brought him into disrepute and he was relieved of his command. Being transferred to Misouri he repelled General Sterling Price's advance. He resigned his commission in 1867, was appointed minister to Mexico in 1868, and from 1881 to 1885 was a member of congress from California. For several years he occupied the office of register of the treasury. He has recently made his home upon a ranch near Los Angeles, Cal.

THE UNITED STATES CRUISER "MONTGOMERY."

F. F. NORCROSS WINS A CASE BUSY IN BETWEEN-SEASON

Important Question of International Law Decided at Chicago.

Fred F. Norcross won an important case in a Chicago court, dealing with the subject of what constitutes an American citizen under certain conditions. The decision was rendered in the case of Ganie Fencio Lucile Marie Rose Belynda Ange d'Auxy, the ten-year-old daughter of Arthur Is Due d'Auxy, a Belgian citizen.

The little girl was born in New York City, and has always lived there. The question as to her citizenship arose in a suit for partition, in which her half-brothers sought to declare her interest in some Cook county property void on the ground that she was not a citizen.

The property descended from Lamar Souther, her grandfather, who died in 1893. It contained that Ganie was a non-resident alien and could not inherit land in Illinois. It was admitted that she was a non-resident within the meaning of the Illinois act, but the question raised was whether she is an alien. The court finds that the little girl is a natural born citizen of the United States.

In deciding the case Judge Tuley said: "This case arose under the alien law of Illinois. Strange to say, there are three questions in it which may be called questions of a national character which have never been decided by the United States supreme court. One is the question that went up from Judge Grosscup a short time ago, whether there is such a thing as a common law of the United States as a nation; another is as to what constituted national citizenship prior to the adoption of the fourteenth amendment of the United States constitution. The third is what constitutes national citizenship under the fourteenth amendment. Those three questions have never been decided by the supreme court of the United States direct."

There is no Let-Up in the Activity of the Wide-Awake Merchant.

Between-season advertising properly conducted is of vast importance to every branch of trade, for it is then that the purchasing public lays its plans for future operations. A wise farmer never sows his seed carelessly, because the harvest time is some months distant, nor will a wise merchant advertise carelessly merely because his business season is not yet at hand. Furthermore, to wait until the harvest time arrives before sowing the seed has never been found productive of crops, and the merchant who waits until the rush commences before advertising should not feel disappointed if his wiser competitor gets the trade.

The funeral of Mrs. E. D. McGowan will be held at 2:30 tomorrow afternoon in Christ church. The following notice to members of the Rock county bar association was given this morning. The members of the Rock County bar association are requested to meet at Christ church tomorrow afternoon at 2:30 to attend the funeral of the wife of Emmett McGowan, secretary of the association.

GAVE THEIR ELDERS
A PLEASANT TIME

PUPILS OF TOWN OF ROCK GIVE ENTERTAINMENT.

Long Program of Music and Recitations Given with Excellent Effect by the Well Trained Children—All Who Were Present Enjoyed the Occasion.

One of the most successful entertainments ever given in the town of Rock by school children, was held last Friday evening in Joint District No. 1. The school house was beautifully decorated with flags, some of which extended the entire length of the room. In spite of its advanced age, the school building looked like a perfect picture. It was filled to overflowing with eager spectators who came to listen to the very interesting program prepared by Miss Kittie L. Connell, the popular teacher. The following program was rendered:

Words of Welcome..... Hazel Goldsmith
Song, "The New Tramp, Tramp"..... School
Recitation, "A Little Boy's Troubles"..... Clark Hutton

CHIEF OF A SCOTTISH CLAN

Colin C. MacLean Chosen President of the Caledonians.

Alex Galbraith, of this city, who for twelve years has faithfully served the Rock County Caledonian society as president and secretary, was chosen president yesterday afternoon at a meeting of the board of directors. Mr. Galbraith thanked the society for the compliment and then withdrew his name. Colin C. MacLean was then chosen president, and the selection is one that meets with the approval of every member in the society. Mr. MacLean has been a faithful worker in the ranks and there is little doubt but what he will fill the chair with much credit. The renting of the club rooms was placed in the hands of Dr. James Mills.

Matting for Floor

Coverings.

If only all housekeepers knew the value and comfort of matting, how much worry and work would be saved, how many dull houses would look cheery! If you own your home and have hardwood floors thank kindly destiny and dismiss the subject. But if you live in a rented house, or cannot afford hard floors, if for any reason you are considering the subject of floor-coverings, pause long before passing over the advantages of matting. It is clean, fresh and easily cared for. It is a perfect floor-covering in summer and an excellent background for rugs in winter—from the cheapest to the richest—adding to the cheerfulness of a room, yielding all accumulated dust to light brushing, possessing indeed almost every advantage that a floor-covering can have, with no disadvantages. In making a move or refitting a house, every yard of it can be utilized. It is easily renovated (by soap and salt water), and can be made whole or pieced, using the whole parts in two rooms to make one good complete room. Lastly, it is cheap, its growing popularity having so encouraged its manufacture or importation that it is to be had almost everywhere in great variety at moderate cost. To sum up its merits, matting gives a house a fresh, clean feeling, a sense of cheerfulness that no other floor covering give. Its soft, new colorings make it available in the most carefully studied color schemes; it is pleasant to walk upon, is a practical protest against dust and microbes, is, in fact, both wholesome and satisfactory.—Home Companion.

NEWS FROM THE MORNING PAPERS

WORLD'S PEACE THREATENED

Nations Will Refuse to Supply Her with Money to Fight the United States—What the Court of Inquiry Will Report—Troops for Seacoast Cities.

Washington, March 11.—An end to Cuba's woes seems near, and that without war. President McKinley is preparing to intervene, perhaps within two weeks, for the purpose of restoring order in Cuba and saving the many thousands of human lives now endangered.

The governments of Europe are exercising a restraining hand upon Spain to prevent her committing a breach of the world's peace and to induce her to accept the inevitable without resort to force. The creditors of Spain, who are in large measure responsible for this diplomatic pressure exerted by their governments, have directly warned Spain she must not make war with America, and that if she does make war the money to carry on operations must come from the people of Spain and not from them.

Great movements affecting the history of nations are now on foot both in Europe and America. The world has come to the same conclusion as that which the people of the United States have reached, that it is time to put a stop to Spain's vain efforts to reassert her rule in Cuba and to the horrors which have grown out of that futile endeavor. The world has come to the conclusion, moreover, that in the desperation of her bankruptcy and decay Spain must not be permitted to destroy the world's peace.

At this very moment quiet, secretive but none the less effective diplomatic pressure is being brought to bear upon the government at Madrid to induce it to accept the inevitable without making useless and destructive war.

SPANIARDS CAUSED IT.

Report Shows They Placed a Mine Under the Maine.

Washington, March 11.—The navy department Thursday received a communication from Judge Advocate Marix and Captain Sampson, president of the court of inquiry. These letters forecast at considerable length the court's report.

Not only will the report state that a hole was found just above the keel on the port side; that part of the port side and a greater portion of the forward deck were blown off; that her ten-inch guns are lying in the mud twenty feet away, off the starboard side; that all her plates from the keel to the water's edge at the deck are pushed up; that the powder magazines and shellroom are intact; that her bottom is all gone, and that the boilers did not explode, but it will also contain the following statement:

1. The disaster was due to an explosion of a submarine mine.
2. This mine was placed by officials of the Spanish government, and exploded by Spanish officials.
3. The mine was purposely moored in the vicinity of this mine, and the explosion was evidently timed when the Maine should, through the influence of the wind and the tide, lie directly over it.
4. Traces of the submarine mine were discovered.
5. Lieutenant Jenkins, who was killed in the disaster, had discovered a shore connection with the mine located in the harbor.

TROOPS MOVE AT ONCE.

Orders Issued to Garrison All Unprotected Ports.

Washington, March 11.—Orders have been issued that will cause manning of hitherto ungarrisoned forts from Boston down the Atlantic coast, and along the gulf to Galveston. Baltimore will then be the only unprotected city in the department of the east, and steps will be taken at once to garrison North Point and Hawkins Point, on the seaward side of the city. These orders demand the utmost promptness in their execution. As all the troops affected have been expecting to be moved at any moment, it is likely that all of Gen. Miles' plans for defense will be in operation within forty-eight hours.

To strengthen the defenses of the national capital, one battery from the Fourth artillery has been ordered from Fort Monroe to the works at Sheridan's Point, Va. This is opposite Fort Washington, Md., and these works control the Potomac for several miles below Washington.

Have Not Yet Bought Ships.

Washington, March 11.—The United States government has not yet acquired a single additional ship for the navy. This is not because of a lack of offers of warships from abroad, but simply for the reason that the navy department is proceeding with all the circumspection consistent with the needs of the case in looking after the qualities and prices of the craft. There is a strong disposition to refrain from being drawn into bad bargains and to insist on getting good vessels at prices not extortionate.

London Thinks War Is Certain.

London, March 11.—Despite the momentary abatement of the tension between the United States and Spain, official circles in London take the gravest view of the situation, and the belief is prevalent that unless a solution of the

Cuban difficulty is arrived at within six weeks at the latest war is inevitable. It is not expected that Spain will effect a settlement with the insurgents and the only alternative is the absolute surrender of the Madrid government which the Spanish public will resist to the last moment.

To Increase Marine Corps.

Washington, March 11.—The commander of the marine corps has been directed by the navy department to enlist two additional battalions, composed of 473 men, and prepare them for immediate service on warships and at store stations.

Triple Alliance Is Rumored.

London, March 11.—The New York correspondent of the Daily Telegraph says: "I have it on the highest authority that a triple alliance between Great Britain, the United States and Japan is pending."

Denial of a French Loan.

New York, March 11.—A dispatch to the Herald from Paris says: "Nothing is known here of Spain contracting a loan in Paris. The rumor was entirely without foundation."

Sailing to Manila Reported.

London, March 11.—A dispatch to the Daily Mail from Singapore says it is reported from Hong Kong that the American squadron has sailed for Manila.

No Report by Spanish Board.

Havana, March 11.—A rumor that the Spanish board of inquiry has made an official report to the minister of marine in Madrid is denied here.

RAMSAY DEPOSITORS LOSE.

Appellate Court Reverses and Remands the Witbeck Case.

Carlyle, Ill., March 11.—Depositors in the defunct Ramsay bank of this city were defeated the second time in the Illinois Appellate court for the 4th district at Mount Vernon. The court reversed and remanded the Witbeck case.

This was a suit of the creditors of the Ramsay bank against ten Chicago men who were bondsmen for Rufus N. Ramsay, state treasurer. The decision in the lower court was favorable to the depositors. It is not likely the case will be retried, as the depositors, who live in Carlyle and vicinity, have said often during the last year they were tired and discouraged.

Block Setting of Strike.

New Bedford, Mass., March 11.—The cotton weavers upset the plans of the state board of arbitration for a settlement of the big mill strike and, to the discomfiture of the other classes of operatives, effectually barred progress toward a conference with the manufacturers. By a vote of 344 to 34 the Weavers' association rejected the proposition of its president for a compromise grading system and insisted upon a total abolition of fining in the mills.

Through Burning Trestle.

Rome, Ga., March 11.—A mixed train on the East & West railroad, running from Cartersville, Ga., into Alabama, went through a burning trestle near Highland, Ala., at 10 o'clock Thursday morning. The engine and five cars went through the trestle. Engineer Spencer Phillips was instantly killed. He was buried under the debris, and his remains have not yet been found. The passenger cars did not go over the trestle.

Exports Show Big Increase.

Washington, March 11.—Trade statistics for February and the first eight months of the fiscal year, which ends on May 31, were issued Thursday by the treasury department. During the eight months ending with February this country exported breadstuffs to the value of \$205,316,000, against \$138,000,000 for the corresponding period the year before, \$94,224,000 two years ago, and \$71,609,000 three years ago.

McCoy and Ruhlin Sign Articles.

Indianapolis, Ind., March 11.—The articles for the McCoy-Ruhlin fight have been signed. The fight is to take place before the club making the greatest inducement, and 65 per cent of the purse goes to the winner and 35 to the loser. The fight is to take place within three months, and all questions of dispute not provided for in the contract will be left for decision to the stakeholder, Harry Weldon.

Mail Car Destroyed by Fire.

LaPorte, Ind., March 11.—Immediately after the arrival here last night of the Lake Shore & Michigan Southern special limited mail train No. 35, west-bound, the Boston & Albany car was discovered on fire. A call for the fire department was made at once, but before it could arrive on the scene the car was nearly consumed and the mail therein destroyed.

Will Not Take Dr. Draper's No.

Champaign, Ill., March 11.—A committee of the board of education of Greater New York is here for a conference with President Draper of the University of Illinois, who has been elected as superintendent of the school system. The committee will again insist on his taking the position in the face of his refusal.

High water in spring creek did considerable damage to the Brown Milling property at Oke. The water is still rising and damage at other places is expected.

JOLIET MEN LOSE.

Allowed Damages Averaging Only \$53 Per Foot Front.

Chicago, March 11.—Trustees of the drainage board and the corps of attorneys who have been engineering the sensational bribery and condemnation proceedings at Joliet are celebrating their great victory. In Judge Hilscher's courtroom in the Joliet courthouse the jury returned a verdict in the condemnation case which cuts the estimates of witnesses and appraisers as to the value of the property involved more than 50 per cent.

Instead of obtaining on an average \$125 per front foot from the drainage board, the contesting property-owners must be content with an average of \$55 per front foot, which is slightly over the amount which the drainage board originally was willing to pay. The acquisition of this land means that the sanitary district has now a complete route for the big drainage ditch.

The drainage board representatives were as greatly surprised by the award of the jury as the Joliet property-owners were indignant. The latter have again pooled their interests, and will now make another fight. They are going to ask Judge Hilscher to set the verdict aside and grant a new trial. The drainage board will refuse to be a party to such a motion, and it is not expected that the Joliet people will succeed in having the verdict set aside.

Gompers on Lattimer Trial.

New York, March 11.—Samuel Gompers, president of the American Federation of Labor, denounces in vigorous terms the decision in the Lattimer trial. He said to a Washington correspondent: "The companies, sheriffs, and the judge and counsel for the defense seemed moved by one motive, that this verdict should show that workers have no rights which corporations are bound to respect, and that their mercenaries have the right, if necessary, to take even human life at their employers' caprice, especially when that life belongs to a foreign worker." Mr. Gompers declined to discuss the probable action of the labor organizations as a result of this decision.

Gates Says Combine Is Ended.

Chicago, March 11.—That the proposed amalgamation of the wire industries of the country has been a failure is admitted by John W. Gates, president of the Illinois Steel company, who was one of the originators and promoters of the proposed combine. It is said that the alleged attempt on the part of one concern included among those intended to form the pool to have the value of its property overestimated had been one of the principal causes of the abandonment of the enterprise.

To Promote General Miles.

Washington, March 11.—The senate committee on military affairs decided to recommend the passage of the bill authorizing the revival of the grade of lieutenant general in the army. The bill authorizes the president to nominate any officer to this grade. The bill is in the interest of Gen. Miles. When the bill was reported to the senate Senator Cockrell said he desired it to be understood that the report was not unanimous.

No Opposition to Cannon.

Washington, March 11.—The senate committee on interstate commerce agreed to recommend the confirmation of W. J. Calhoun as interstate commerce commissioner. There was no opposition.

SIMPLICITY ITSELF.

A SIMPLE HARMLESS REMEDY

Yet It Cures the Worst Cases of Dyspepsia and Indigestion.

Dr. Jennison, who has made a life study of stomach troubles, says: All forms of indigestion really amount to the same thing, that is, failure to completely digest the food eaten; no matter whether the trouble is acid dyspepsia or sour stomach, belching of wind, nervous dyspepsia or loss of flesh and appetite; a person will not have any of them if the stomach can be induced by any natural, harmless way to thoroughly digest what is eaten, and this can be done by a simple remedy which I have tested in hundreds of aggravated cases with complete success. The remedy is a combination of fruit and vegetable essences, pure aseptic pepsin and golden seal put up in the form of pleasant tasting tablets and sold by druggists under the name of Stuart's Dyspepsia Tablets. One or two of these tablets should be taken after meals and allowed to dissolve in the mouth and mingling with the food in the stomach digests it completely before it has time to ferment, decay and sour.

On actual experiment one grain of Stuart's Dyspepsia Tablets will digest three thousand grains of meat, eggs and similar, wholesome foods.

It is safe to say if this wholesome remedy was better known, by people generally, it would be a national blessing, as we are a nation of dyspeptics and nine-tenths of all diseases owe their origin to imperfect digestion and nutrition.

Stuart's Dyspepsia Tablets are not a secret patent medicine, but a fifty cent package will do more real good for a weak stomach than fifty dollars worth of patent medicines add a person has the satisfaction of knowing just what he is putting into his stomach, which he does not know when widely advertised patent medicines are used.

All druggists sell Stuart's Dyspepsia Tablets, full sized packages 50c. A little book on cause and cure of stomach troubles mailed free by addressing The Stuart Co., Marshall, Mich.

THIS DAY IN HISTORY

1731—Robert Treat Paine, "signer," born in Boston; died there 1814.
 1820—Benjamin West, American painter, died in London; born in Pennsylvania 1738. West was a member of the Society of Friends. He began to paint at 17 years of age and after studying in Rome went to London, where his work attracted the notice of King George III. He was an innovator, abolishing classic methods in robes and posing. In 1792 he succeeded Joshua Reynolds as president of the Royal academy.

1874—Charles Sumner, statesman, died in Washington city; born in Boston 1811.
 1883—Alexander Mikhailovitch Gortchakov, Russian prince and statesman, died; born 1798.
 1892—A fire damp explosion in a mine near Charleroi, Belgium, entombed 214 miners, killing 153.
 1895—Worth, the world famous dressmaker of Paris, died; born 1816.
 1897—Professor Henry Drummond, noted author, died at Tunbridge Wells, England; aged 74.

GOVERNOR SCOFIELD'S ADDRESS.

Governor Scofield talked sound sense in his address to the farmers at the opera house, Wednesday night. He made a plea for honest assessments, and honest tax paying. He advocated a system that would be just to all, and unduly favorable to none. He said personal property escaped taxation in a large degree, and that he favored a law taxing mortgages and the like. The next legislature, he said, would probably pass a bill compelling corporations, insurance companies, express and sleeping car companies to pay their just proportion.

Legislation along these lines met an untimely fate at the last session through an error, but that mistake will undoubtedly be remedied.

Every sentence of the governor's address carried a fact to his hearers that was worth considering. It was an honest, straightforward and business-like speech, delivered by an honest, straightforward and business-like man, and demonstrated again that when the people elected Edward Scofield governor, they acted wisely and well. He is a man of the people, and for the people and is not afraid to define his position at any and all times.

MILWAUKEE, STOP AND THINK.

Milwaukee calculates to save \$39,500 this year by discharging seventy-nine school teachers. Unless the schools of the Cream City have been run in an extraordinarily extravagant manner, this step is not justified. The people owe young America an education, and the best is none too good. The claim of posterity should not be forgotten in the rush of the present. Education makes good citizens, and good citizens are the crying need of the country. Economy is to be commended, but unwise economy is worse than none at all. Milwaukee, it would therefore appear, should see if the saving cannot be made in some other department before it scrapes the schools. The children of today are the rulers of tomorrow. Equip them well and they will rule wisely. In no way can the future be more effectively mortgaged to retrogression than by reducing the educational advantages.

Perhaps there are reasons that justify the proposed action, but as a general proposition the man who said that "too much money cannot be spent for education" spoke wisely, and Milwaukee people, perhaps, would do well to weigh his words before final action is taken.

The report that Sylvester Scovel, the Havana correspondent, was compelled to "steal away during the night" to avoid arrest by the Spaniards seems to have been well founded. There is a strong suspicion, however, that "Sylly" only stole away to Key West with another of his justly celebrated yellow yarns. The Spaniards should use every effort to discourage "Sylly," for he has been keeping up the war alone after everyone else was willing to quit, and adding greatly to Walter Wellman's burdens thereby. Consideration for Walter, who is already superloaded with care, should prompt Scovel to let go if nothing else does.

A London dispatch says "the habit of smoking is growing among the English women, and a well known woman is seen each day, with a briar pipe in her mouth." That woman ought to attract enough attention to make her "well known," in one sense, but in another sense she is doubtless less favorably known. When a lady begins to smoke a briar pipe on the street, she,—but let it go. Words fail.

Perhaps there are people who will be glad to know that General Long-

street is better even if they do learn through the medium of a top-of-column-next-to-reading-matter-with-a-foot-square-portrait-and-half-column-testimonial that he has been restored to health by the use of sawdust sandwiches made by that eminent scientist Doctor Buzzsaw Sawlog—and then again, perhaps there are not.

Having easily conquered the great American potato, Gov. Pingree will call a special session of the Michigan legislature for the purpose of having an act passed compelling the railroads of the state to reduce their passenger rates. When Mr. Pingree gets the railroads fixed, he will have "called down" everything in or about Michigan except the stars in the heavens. However, their turn may come next.

The bill appropriating money for preparation for war has been signed by the president and is now a law. It is therefore in order to move to amend Charles Ootesworth Pickney's famous saying so that it will read "Fifty millions for defense but not" etc.

And the very night that "Sylly" Scovel was compelled to take his life in one hand and his grip in another, and steal away from Havana, a whole shipload of Americans arrived at that city, and remarked at the calmness thereof.

According to the market reports in the Milwaukee papers, whiskey, in that town, is firm. There is a general belief, around the state, nevertheless, that in Milwaukee, whiskey, comparatively, is weak.

General Lee says he will "face any music" if the people support him. The instrument upon which the Spaniards can play a tune that will scare General Lee has not yet been invented.

Editor Kohlman's patriotic advice, "Keep cool, and read my paper," is being followed in part, at least. The thermometer in these parts has not yet been above 55 degrees.

The Madison Journal suggests the selection of the youngest daughter of the late General Fairchild to christen the battleship Wisconsin when the launching occurs.

But perhaps the city can do someone a favor in the future by loaning them the testing instruments, and in that case perhaps their purchase was justified.

It is now said that the court of inquiry will dispose of the American Spanish question as to the destruction of the Maine with a "Scotch verdict."

According to the military authorities the fighting strength of the United States is 10,726,207 ordinary men, and Senator Mason.

While good men may be abused by the newspapers, such abuse never injured a good man.

Perhaps Spain thinks she will get the Irish vote by buying the warship "O'Higgins."

Equal to Leap Year.
 "Do you know, Miss Willing," said young Woodbe, the other evening, "that your face reminds me of a perfect mirror?"

"Does it?" she asked; "and why so, pray?"

"Because," he replied, "it reflects nothing but the truth."

"Oh!" she exclaimed, in a tone of disappointment, "I thought it was for a better reason than that."

"What did you expect me to say?" he asked.

"I thought," continued the blushing maid, "that it was because every time you looked in my face you saw your own."

The engagement has been announced.—Chicago Daily News.

"I wish I had a voice which could be heard throughout the length and breadth of this continent, that I might speak to the army of sufferers who are being tortured by the disease with which I have been afflicted for years. I have been an intense sufferer for several years, and everyone who has had that disease knows the extreme agony I must have endured. I chills, burning, scratching, digging and loss of sleep has been my deplorable condition. Four of our best physicians had exhausted their energies on my case, without even giving me relief. Oh, what a godsend to me when one of our druggists called my attention to that wonderful remedy, Septicide, and assured me that it would do what skillful hands had completely failed in doing. Suffice it to say that two bottles cured me completely, so there is no return of this dreadful complaint."

EVERYBODY WAS HIGHLY PLEASED

MIDWINTER FAIR MOST SUCCESSFUL OF THE SERIES.

All Those in Attendance Profited by What They Saw and Heard—Last Night's Musical Program—Addresses Delivered by Messrs. Johnston and Adams.

The Midwinter Fair of 1898 has passed into history as by far the best of the series. There were over two thousand entries; nearly \$2,500 worth of premiums were given, and the standard throughout was such as to cause admiring comment.

Farmers from all parts of Wisconsin and northern Illinois were attracted by the show and were loud in their praise of the plan. A significant verdict was that rendered by the farm institute people who judged the grain this year and in 1896 and 1897.

"There has been a remarkable improvement in Rock county grain in the last three years," they declared. "The Midwinter Fair has brought the best varieties to public attention. It has added 20 per cent. to the productive possibilities of every acre in the county."

Judges Gave Satisfaction.

The judging of grain, dairy and horse exhibit this year could hardly have been improved. R. P. Sterick, of Springfield, Ill., and H. A. Briggs, of Elkhorn, who judged the horses, are recognized throughout the country as authorities on fine horse flesh; and the grain and dairy judges were equally competent.

The financial report of the fair committee is not yet completed. Cash donations will foot up fully \$300, however, but this will be no more than enough, as the necessity of paying rent this year added materially to the cost.

Volunteer assistance of much value was given to the committee. P. Caldwell as superintendent of the vegetable department did yeoman service, and Hiram Proctor was very effective in the grain department. C. J. Belding, who occupied half of the rink with his farm machinery and vehicles gave the committee every possible facility.

With the meeting last evening at the opera house, the Midwinter Fair and Farm Institute came to a close, and it was a fitting end to what has been the "most successful 'round-up' in the history of the state. All the week the city has been thronged with farmers from near and far, accompanied by their wives, their sons and their daughters, and all have manifested the liveliest interest not only in the articles placed on exhibition but in the sessions of the institute. All of these have been thronged, and the speakers were listened to with the closest attention, for every one present seemed anxious to learn whatever was to be learned regarding their duties on the farm and in the home, and to profit by the experience of others in the care of stock and the raising of crops.

Last evening's program was designed more for relaxation and entertainment than for instruction, although the person who could not derive profit from it must have been extraordinarily dull—far more stupid than are the farmers of Wisconsin. The exercises opened with an overture by the Y. M. C. A. band. Mr. O. H. Fethers, in announcing the speakers, ironically referred to them as farmers, one of whom had, since his graduation from the farm, become a financier, one a lawyer, and the third an educator and author.

Mr. Johnston's Address.

Hon. John Johnston, of Milwaukee, president of the board of regents of the state university, was then introduced and read a paper on "Farming in Scotland in the Days of our Grandfathers." In those days, he said, there was no such thing as rotation of crop. Oats, peas and barley were the principal crops. The farms were divided into two kinds, the intown and the outfields. The intown, which was the section adjoining the house, received all the attention, which was little enough. The outfields were covered mostly with heather. There were frequent seasons of scarcity when the men worked in the house, knitting. There were no wagons, all carrying being done in large bask or hung from the sides of the saddles. The crops were cut with a sickle and threshed with a flail. The rural population of Scotland was as great 100 years ago as it is today, the increase of 2 1/2 per cent. having been in the cities. Clothing and food were plain and simple. During his talk Mr. Johnston told a number of humorous true stories of Scotch life, which were greatly enjoyed by his audience.

At the conclusion of Mr. Johnston's address Miss Elizabeth Abbott and Miss Elizabeth Palmer rendered a duet in such an artistic manner as to call forth an encore. Mrs. Christine Hawley followed with a lullaby and a solo, "The Ring," both of which were loudly applauded.

Mrs. John F. Sweeney rendered Lizzy's rhapsody No. 10 and the Rustic March, and was followed by a song, "Katy's Letter," by Miss Mabel Lewis. As an encore Miss Lewis sang "The Lass With the Delicate Air."

President Adams' Paper

President Charles Kendall Adams, of the state university, was introduced, and said of all great institutions the university is the most democratic, not in a political sense, but because in no other institution do the rich, the poor and the well-to-do appear on the same level. It is more democratic than the church or the penitentiary. All stu-

dents are examined in the same studies, study the same subjects, are taught by the same teachers, play the same games, practice in the same gymnasium, have the same chances of future success, regardless of their financial standing. The rich boy can buy more clothes and more books and can join more societies, but the poor boy also has his advantages. He has no distractions of society and he knows that whatever he is to be must be done by himself. This democracy also prevails in the faculty. In the university there is no toleration of snobbery. Both the students and the professors recognize merit wherever it is found.

A musical selection by a quartette consisting of William Garbutt, J. C. Kline, J. S. Taylor and George G. Paris called forth an encore and responded with "Yankee Doodle" revised and amended to suit the present complications with Spain. The meeting closed with an orchestral number by the Y. M. C. A. band and the Farmer's Institute became a thing of the past.

FARMER'S WIFE IS DECLARED INSANE

CONVEYED TO MENDOTA FOR TREATMENT.

Mrs. Maggie O'Neill, the Unfortunate Woman, Resided in the Town of Janesville, and Is Well Known—Her Case Is Not Considered Hopeless.

Mrs. Maggie O'Neill, who resides six miles north of this city in the town of Janesville, was taken to the insane asylum at Mendota this morning for treatment. The unfortunate woman, who did not realize where she was being taken, was accompanied by her husband and Sheriff Acheson.

Mentally Diseased.

For several weeks past relatives claim that Mrs. O'Neill's actions have not been those of a sane person and at times it was feared she might do injury to herself as well as to those about her. It was then decided that her condition should be looked into, and a commission of local physicians submitted her to a rigid examination, which resulted in their finding her of unsound mind. County Judge J. W. Sale then issued the necessary papers. This morning Turnkey Samuel Brown drove to the O'Neill home where he found the unfortunate woman working about the house just as any sane woman.

When notified that she was wanted in Janesville she commenced to cry, and ask all sorts of questions. She offered no resistance, and made the six mile trip here without causing the least trouble.

Relatives say they are at a loss to know of any reason why Mrs. O'Neill should have lost her reasoning. Family troubles, they say, have caused her a deal of anxiety of late years, and some believe constant brooding over these troubles has had a tendency to unbalance her mind.

The unfortunate woman, who is but twenty-eight years of age, has a host of friends in this city who will hope for her speedy recovery.

Local Delegates Left Today To Take Part in the Two Days' Program—Rain Prevented Them Making the Trip Overland—Will Return Tomorrow.

Twelve members of the local lodge of Good Templars left the city today for Delavan, where they will attend the second quarterly session of the sixth District Lodge, Independent Order Good Templars.

The session will be today and tomorrow, and the Janesville members will be the guests of Delavan Lodge No. 452.

Those who went from here as delegates from People's Lodge No. 460 were: Mrs. G. I. Stratton; Misses Hattie Ward, Hannah Griffiths, Ella Pickering, Jessie O'Neill and Hattie Hinckley; Messrs. J. A. Caniff, F. O. Humphrey, W. G. Kildow, Charles Ward, William Moffatt, M. S. Kellogg, Charles Penny and R. H. Granger.

Could Not Go Overland.

Members of the local lodge had made plans to make the trip overland at 7 o'clock this morning, but the heavy rains during the night made such a trip out of the question. Each lodge in the district is entitled to one lodge delegate and one additional delegate for each ten members in good standing; consequently about 100 delegates are expected. They will be entertained by the Delavan lodge with the assistance of the Baptist and Methodist churches. This evening a public meeting will be held in the Baptist church and an interesting program has been arranged.

Woman in Business.

She had served acceptably as treasurer of the club for a little over a year, and that was an exceptional record.

"Do you have difficulty in balancing your books?" they asked.

"Oh, dear, no," she replied. "Why, it's the easiest thing in the world. I just add up what I have received and subtract from that what I have paid out to show what is due the club, and then I make my husband give me a check for the amount. There's really nothing hard about keeping books when you know how."—Chicago Post.

Needful.

"I am tired of these constant suspicions," exclaimed the politician. "I'm going to demand an investigation."

"But," replied the confidential friend, "are you sure an investigation would really vindicate you?"

"I don't know about that; but it will show these people, once for all, that they can't prove anything."—Washington Star.

His Foolish Answer.

FLOURISHED GUNS ON ST. PAUL TRAIN

TWO KLOEDIKE PASSENGERS CAUSED SMALL PANIC

Men Were Threatened with Arrest when the Train Arrived in Janesville—Amused Themselves by Shooting at the Chandelier—Settled For Their Fun.

When the 4:40 Mineral Point passenger train arrived in the city on the Chicago, Milwaukee & St. Paul road yesterday afternoon, a more frightened lot of men never alighted from the sucker than the two dozen passengers who got out here.

Two young men, who looked every inch like farmer boys, remained within the coach, and no one objected. They were each bound for the Klondike gold fields, and aside from being well loaded with ammunition and guns, they each supported a fair sized whiskey jug.

In Cowboy Style

"When we reached Gratiot," said one of the trainmen, "these two fellows, each about half shot with poor whiskey, got on and asked if they were on the right train for Milwaukee. They were each shown seats in the smoking car, and soon after their baggage was brought in commenced to tell everybody they were on their way to Seattle, where they had made all necessary arrangements for their departure for the Klondike about the latter part of this month."

"All went well till after we pulled out of Monroe," continued the excited trainman, "when the older one of the two made a bet that he could shoot the glass globe off the gas jet. No one of the passengers thought the talk amounted to anything till the man, with Winchester rifle in hand, suddenly jumped to his feet and taking deliberate aim at the chandelier, fired. The glass globe broke in a hundred pieces and flew in all directions."

Scared the Passengers.

The now frightened passengers began to look around for places of shelter and Conductor Charles Howard was notified of the trouble. Both young men were then told that such actions would not be tolerated and that upon the arrival of the train in Janesville their arrest would be demanded. Both begged to be let off, and stated that they would gladly settle the damage. They were allowed to go on to Milwaukee."

From a passenger on the train it was learned that both young men resided in Shullsburg and that they were on their way to Dawson City, Alaska.

Fortunately no one of the two dozen passengers were injured.

Special Announcement.

MR. GOSCHEN'S EXPLANATION. REFUSE SENATE AMENDMENTS.

First Lord of the Admiralty Declares That the Money Asked For Is Hardly Considered Adequate—Sir Charles Dilke's Significant Speech.

London, March 11.—The first lord of the admiralty, George J. Goschen, in presenting the naval estimates to the house of commons Thursday, pointed out that with the outlay in naval works the expenditure amounted to the colossal sum of £25,550,000 (\$127,750,000), which, he explained, was even considered inadequate in some quarters.

Referring to the channel squadron, Mr. Goschen said it was the most powerful ever gathered together, its duties being not only to parade the channel, but to engage in offensive operations in the time of war. Mr. Goschen dilated upon the quiet and unostentatious increase of the British fleet in China waters by four vessels from other foreign stations, as being an instance of the naval preparedness.

Mr. Goschen then deplored the recent industrial struggles, and appealed for an increase of pay for the British seamen of the merchant marine, saying that if from false economy or imposing conditions on either side British sailors and ships were ousted by foreigners, then "God help us." He concluded: "If peace shall again reign in our centers of industry, and if the nation that calls herself mistress of the sea reasserts herself by an increase of merchant seamen, then the nation may look forward in confidence that if there be peace it will be peace with honor, but if war, which God forbid, it must be war crowned with victory."

It is reported in the lobbies that the Russian imperial ukase ordering the disbursement of 90,000,000 roubles as extraordinary expenditure for the construction of war ships will cause the government to make a considerable increase in the naval estimates.

British Raid Story Denied.

London, March 11.—A news agency here claims to have authority to deny the story about a British raid in Brazil. The story was based on the fact that a colonial official of British Guiana had been sent to the disputed territory in connection with the claims of certain British settlers, but who returned lest apprehension should arise in view of the boundary negotiations.

Cruiser Ordered to Manila.

Hongkong, March 11.—The British first class cruiser Edgar has been ordered to Manila. It is believed that this is due to further activity upon the part of the insurgents in the Philippine islands.

Water for the Christening.

Frankfort, Ky., March 11.—It is settled that the battleship Kentucky will be christened with a bottle of water from the old Lincoln homestead in Larue county.

A Woman Manager.

Why is it that a woman in the Sherborn (Mass.) prison earns more than three times as much as a man in the Concord reformatory, and more than twice as much as a man in the Charlestown prison? This question, asked by a correspondent of the Dedham Transcript, can have but one answer. It is in consequence of the superior administrative ability of the woman at the head of the Sherborn prison, Mrs. Eller Johnson.—Woman's Journal.

A Prize Winner.

Miss Belle Mosher of Matteawan, N. Y., recently appeared at the Dibble Opera House, in that town, and won a large sum of money for charity's cause by driving 20 teapenny wire nails up to their heads in a heavy joist of wood in four minutes. She was presented with a valuable piece of silverware. A few evenings previous she received a watch as prize winner in a wood sawing contest.

A woman's office building is to be erected in St. Louis. The offices will be rented to business women or to people having business with women. It will be the aim to attract dressmakers, milliners, hairdressers, women manicurers, chiropodists, newspaper women and typewriters as well as woman physicians and lawyers.

Too much washing is apt to make the hair harsh and dry. At bedtime the hair should be unstained and thoroughly brushed and then plaited loosely. Hair that is regularly brushed night and morning will keep clean and glossy and require less frequent washing.

Pet calves are the latest fad. Fashionable women in London are following the leadership of Signora Crispi, the wife of the Italian premier, who appears at outdoor festivities followed by a tame calf attired in a richly adorned coat of vellum.

Miss Martha Partington enjoys the distinction of being the only woman court clerk in New York. She has been made assistant clerk of the court of special sessions, second division, and her oath of office was administered by Mayor Van Wyck.

The Women's Christian Temperance union is sending literature of various kinds to the lumber camps in Wisconsin, New Hampshire, Massachusetts, Michigan, New York, Minnesota and other states.

By a Vote of 136 to 99 the Indian Bill Is Sent to Conference—Little Business in the Senate—Grain in Farmers' Hands.

Washington, March 11.—After a debate in the house which lasted more than five hours the senate amendment to the Indian appropriation bill providing for the free entry of ceded Indian lands was Thursday non-concurred in by a vote of 99 to 136.

The friends of the free-home clause made a gallant struggle, but they met the opposition of some of the prominent leaders on the republican side—Dingley, Grosvenor, Daile and Payne—and they were further weakened by the fact that many of the friends of the proposition were alienated by the belief that, as drawn, the amendment would work injury to the agricultural colleges of the country.

The senate amendment for the ratification of the Seminole treaty was also non-concurred in, after the substitute proposition offered by the conferees to ratify the Kiowa, Comanche and Apache treaty had fallen under a point of order.

The action of the house sends the bill back to conference with non-concurrence on all the senate amendments.

FARMERS HOLD THEIR GRAIN.

Government Reports Indicate 121,000,000 Bushels of Wheat on Hand.

Washington, March 11.—The consolidated returns of the different crop-reporting agencies of the department of agriculture made up to March 1 show the wheat reserves in farmers' hands on that date to have been the equivalent of 22.3 per cent of last year's crop, or about 121,000,000 bushels. This is 33,000,000 bushels in excess of the farm reserve reported one year ago, but the result of the special wheat investigation made by the department last fall would indicate that the crop of 1896 was larger than the department had reason to believe at the time. The proportion of the crop of 1897 shipped beyond county lines is 50.7 per cent.

The corn in farmers' hands as estimated aggregates 783,000,000 bushels, or 41.1 per cent of last year's crop, as against 1,164,000,000 bushels, or 51 per cent, on hand on March 1, 1897, and 1,072,000,000 bushels, or 49.8 per cent, on March 1, 1896. The proportion of the total crop shipped out of the county where grown is estimated at 21.6 per cent, or about 412,000,000 bushels. The proportion of the total crop merchantable is estimated at 86.3 per cent.

Of oats there are reported to be about 272,000,000 bushels, or 38.9 per cent, still in farmers' hands, as compared with 313,000,000 bushels, or 44.2 per cent, on March 1, 1897. The proportion of this crop shipped beyond county lines is estimated at 29.2 per cent.

Little Business in the Senate.

Washington, March 11.—No business of real importance was transacted by the senate in open session Thursday. The session lasted only an hour, the time being largely consumed in disposing of routine morning business. Consideration of bills on the general calendar was begun, the first being a measure authorizing the president to take such steps as he might deem necessary to obtain an indemnity from the Spanish government for injuries done to two Americans—August Bolter and Gustave Richelieu—by unlawful arrest and imprisonment. The reading of the bill caused a stir in the chamber. It was reported during the extraordinary session by Mr. Lodge from the committee on foreign relations. Mr. Davis, chairman of the foreign relations committee, objected and it went over.

Evans Bill Is Not Favored.

Washington, March 11.—The subcommittee on civil service reform decided by a unanimous vote to report adversely the Evans bill, taking a large number of places, out of the classified service.

Wages Restored at Arsenal.

Washington, March 11.—Assistant Secretary Melklejohn has made an order restoring the wages of the employees in the United States arsenal at Rock Island, Ill., to the rates existing Dec. 31, 1897.

Senate Confirms Calhoun.

Washington, March 11.—The nomination of W. J. Calhoun of Illinois to be a member of the interstate commerce commission was confirmed by the senate Thursday.

Vote to Free Cuba.

Des Moines, Iowa, March 11.—The house of the Iowa legislature Thursday adopted a resolution favoring freedom to Cuba. The resolution was introduced Tuesday by Mr. Boyd, a democrat of Shelby county. It was placed on file and called up by him Thursday. No word of opposition was offered to the resolution, and applause followed its adoption by a unanimous vote.

Dr. W. O. Rodgers Dead.

Omaha, Neb., March 11.—Dr. W. O. Rodgers, head physician of the women of the world, died Thursday from rheumatism of the brain. He had been ill but a few days. Dr. Rodgers' identification with fraternal insurance orders has been extensive during the last decade.

Contest for Hanna's Seat.

Cleveland, O., March 11.—Mayor Robert E. McKisson, who was the anti-Hanna candidate before the legislature for the senatorship, has decided to contest Mr. Hanna's right to be seated for the long term.

A WOMAN'S BODY.

What Its Neglect Leads to. Mrs. Chas. King's Experience.

A woman's body is the repository of the most delicate mechanism in the whole realm of creation, and yet most women will let it get out of order and keep out of order, just as if it were of no consequence. Their backs ache and heads throb and burn; they have wandering pains, now here and now there. They experience extreme lassitude, that don't-care and want-to-be-left-alone feeling, excitability, irritability, nervousness, sleeplessness and the blues, yet they will go about their work until they can scarcely stand on their poor swollen feet, and do nothing to help themselves.

These are the positive fore-runners of serious womb complications, and unless given immediate attention will result in untold misery, if not death.

Lydia E. Pinkham's Vegetable Compound will, beyond the question of a doubt, relieve all this trouble before it becomes serious, and it has cured many after their troubles had become chronic.

The Compound should be taken immediately upon the appearance of any of these symptoms above enumerated. It is a vegetable tonic which invigorates and stimulates the entire female organism, and will produce the same beneficial results in the case of any sick woman as it did with Mrs. Chas. King, 1815 Rosewood St., Philadelphia, Pa., whose letter we attach:

"I write these few lines, thanking you for restoring my health. For twelve years I suffered with pains impossible to describe. I had bearing-down feelings, backache, burning sensation in my stomach, chills, headache, and always had black specks before my eyes. I was afraid to stay alone, for I sometimes had four and five fainting spells a day. I had several doctors and tried many patent medicines. Two years ago I was so bad that I had to go to bed and have a trained nurse. Through her I commenced to take Lydia E. Pinkham's Vegetable Compound, and I never had anything give me the relief that it has. I have taken eight bottles, and am now enjoying the best of health again. I can truthfully say it has cured me."

Cubans Win a Big Fight.

New York, March 11.—The Cuban junta has received by messenger the report of Gen. Lope Riego, who commanded the Cuban forces at the battle of Najasa, Feb. 21-24. The details of the battle show that, while the Cubans were outnumbered four to one, for four days they held their position and caused the Spanish troops to retreat, leaving 293 dead upon the field.

Burmese Hill Tribe Revolts.

London, March 11.—A special dispatch from Allahabad says the Kachins, a Burmese hill tribe, have risen and massacred five military policemen, capturing their arms. The Kachins, it appears, have also driven back a small force which was sent to punish them.

Czar's Warning to Japan.

St. Petersburg, March 11.—An imperial ukase just issued orders the disbursement of 90,000,000 roubles as extraordinary expenditure for the construction of warships. It is added that no loan will be raised to provide the money.

ACCESSORIES.

Pretty Trifles For the Wardrobe of the Fashionable Woman.

Fashion in fans runs all in the direction of the ancient style, small in size and elaborate in decoration. The big Spanish fan is at a discount, little toys of painted silk, satin, gauze or parchment monopolizing favor. Spangled decorations and enameled sticks are revived, and the possession of a genuine antique is now much to be envied.

Touques are a favorite form of hat and are made of all sorts of materials. Some of the new ones are composed of twists and draperies of gauze, velvet or mouseline de soie intermixed with separate strips of wide, coarsely woven straw. The

Violet and iris continue to be the fashionable perfumes. It is better not to use perfume at all unless one uses the very best quality, as the cheaper grades often contain poisonous substances the fumes of which are unwholesome. Inferior sorts also sometimes become coarse and rank in odor after the first freshness has evaporated.

The picture illustrates an elegant house gown of yellow broche silk. The edge is finished by a circular ruffle of white tulle bordered with black marabout, and the gown opens over a petticoat of yellow liberty satin with incrustations of embroidery. There is a slight, round décolletage, encircled with marabout. The half length sleeves are composed of a full blouse of lace.

FINE EMBROIDERY.

A Beautiful Panel Screen and the Way It May Be Done in Crewels and Silks.

A species of embroidery which is called a novelty in France and is just now all the fashion appeared at the Decorative Art rooms here in New York a number of years ago, an especial exhibition of the work of Mrs. Holmes of Boston. It consisted of panels, squares and other shapes, each one being a realistic landscape done in crewels and silks.

but having all the vigor of color of an oil painting. In the accompanying design for a screen the panels are worked in this way. The first panel is entitled "A Calm Evening." The foundation is a pale, dull blue. The houses and church are put in with a dark purple. The leaves of the vine are in dark green, with others of a lighter green, the moon and its reflection pale yellow, the lines of the clouds indigo blue, the bridge and the ground a dark brown, and the markings of the water in black. The middle panel is called "A Starry Night." Gold stars are embroidered on a deep blue ground, and the clouds are cut out of a rosy gray. The third panel is called "Dawn." The foundation is yellowish pink, the line of the clouds is in bright rose color, the land in the distance in indigo blue, the vessels are in a deep rich brown, and the rocks in the foreground in dark green and black.—New York Tribune.

First Girls' School in China.

The pioneer school for girls in China has been started. The Shanghai papers of the 24th of December contain the plan of organization and a curious lot of regulations which have been framed for the government of this, the first institution for the education of women founded and managed by natives. It is, of course, dedicated to Confucius, and a tablet to his honor will be erected in the school for the girls to worship.

At the beginning only 40 girls, between the ages of 8 and 15, from the upper classes, are to be received, but if the experiment is a success the number will be enlarged as fast as circumstances will justify. There are to be two teachers—Miss An Ngai Teh and Miss Chih Mei Yu, both of whom have been educated in the United States. A board of 12 lady (Chinese) managers, or trustees, is to be elected by the votes of those who contribute to the maintenance of the school, and an advisory board of 12 gentlemen, but neither the latter nor any other men shall ever be admitted to the school. If they wish to consult with the teachers, they must arrange to meet them elsewhere. The tuition is \$1 a month, with 12½ cents per month as fees to the servants, this including sleeping apartments, but meals for boarders are extra.

A Mississippi Woman.

Mrs. Robert Somerville of Greenville, president of the Mississippi W. S. A., is a lady highly respected in her section. Indeed, most of the southern state suffrage associations are thus fortunate in their presidents. The Greenville Times says: "Mrs. Somerville, the president of the Mississippi organization, is a woman of exceptional and carefully cultured intellectual strength, united to a personality and social prestige which peculiarly fit her for the responsible position she holds. She is the eldest daughter of the late William L. Nugent of Jackson and has inherited in the highest degree the mental gifts possessed by her distinguished father. The work of the association has made surprising progress in the south, notwithstanding the predictions that the conservatism of this section would oppose a formidable barrier to its advance."

Keeping Posted.

At least one morning in the week the intellectual smart set in Washington arises an hour earlier and is seen wending

ing its way to the Wimodaughis club, where behind closed doors Miss Janet Richards posts her fair hearers on all the topics of interest of the day—political, religious, social and literary—so that when they take their departure they are able to discuss intelligently with priest, layman or politician subjects of present interest. A large number of the official set are among her audience. One busy woman said: "You do not know what a relief it is to us, for with all our social duties it would be impossible for us to keep posted on all the topics necessary for discussion in official life. We are also instructed in the literature of the day and learn what to criticize. How could we keep read up and have time for anything else?"

May Mean Another Strike.

Columbus, O., March 11.—The demand of the Hocking operators for a 5-cent differential as against the thirteenth Pittsburgh district was formally refused by the miners' national organization, and it is probable that a strike will be inaugurated April 1. The miners declined to consider a proposition to arbitrate, claiming to be irrevocably bound by the Chicago agreement. The operators call attention to the fact that the Hocking interests did not agree to the settlement arranged at Chicago. They insist that they are able to show by figures that they have been continually losing business under the old agreement, and that it would be to the interest of both miners and operators to grant the differential.

Japan's Warning to Russia.

London, March 11.—The Morning Post says it learns that Japan has warned Russia that if the latter retains Port Arthur Japan will retain Wei-Hai-Wei and the islands adjacent. The same paper says the Japanese admiralty has ordered the men-of-war building abroad to be hurried, and it denies the report that Japan will sell the cruisers now building at Philadelphia and San Francisco.

Concedes Our Claims.

New York, March 11.—A dispatch from Ottawa says Sir Julian Pauncefote, the British ambassador, has informed the Canadian ministry officially that he has arranged a convention with the United States whereby the Alaskan boundary dispute has been settled. Under the terms of the convention the British government has conceded the claims of the United States.

Railway Men in Convention.

Chicago, March 11.—An organization to be known as the Federation of American Railway Employees has been perfected in this city. It seeks to bring all organized railway employees into one central body, which shall, under certain conditions, act with one accord, but without interfering with the individuality of each organization belonging to the central body to act for itself. The following officers were elected: Chairman, E. C. Clark, Cedar Rapids, Iowa, grand chief conductor of the Order of Railway Conductors; vice chairman, P. H. Morrissey, grand master of the Brotherhood of Railway Trainmen; secretary, W. V. Powell, Peoria, grand chief of the Order of Railway Telegraphers.

Motiny in a State's Prison.

Michigan City, Ind., March 11.—An attempt at a break in the state prison was made here Thursday night by 200 convicts, led by William Sauerwine, a fourteen-year man from Vigo county. While the convicts were at supper Capt. Barnard, who was in charge of the dining room, noticed a commotion. He rang the bell and ordered the steward to serve the meat to the men. Then the convicts threw the dishes at the guards. Night Man Anderson, coming on duty, was attracted to the dining room, and, seeing the excitement, drew his revolver and fired upon the leaders, hurting two of them. It is thought they will both die.

Women's Club Officials at St. Louis.

St. Louis, Mo., March 11.—Mrs. Ellen M. Henrotin, president of the General Federation of Women's clubs; Mrs. L. B. Shattuck of Chicago, Mrs. Henry D. Pierce of Indianapolis, Mrs. C. P. Barnes, recording secretary, and Mrs. Ess and Mrs. Laura Scammon of Kansas City are in the city preparing the programme for the fourth biennial convention of the federation, to be held the third week in June in Denver. There are now several candidates in the field for president. The present is the second term of office of Mrs. Henrotin and two terms is the limit.

Great Britain's Interests Are Ours.

Washington, March 11.—It is felt to be a matter of congratulation by leading men in congress, as well as those in official life, that there exists between Great Britain and the United States a cordiality of sentiment and community of interests far beyond the ordinary comity of nations. The attitude of Great Britain with respect to our intentions with Spain is expected to be such as to contribute, as far as any foreign influence can, toward checking Spain in any course which would compel the United States to go to war.

Wages for Labor at Mines Fixed.

Columbus, Ohio, March 11.—The miners' and operators' committees have agreed upon the prices for day labor in mining. The scale is \$1.75 a day for drivers and other inside laborers, \$1.90 for trackmen and \$1.75 for assistant trackmen. It was decided that a day's work should begin when the man was at his place in the mines. The agreement affects all the states controlled by the Chicago agreement.

Warned By Smell of Smoke

The many fires of late have made people think about their insurance—the companies in which it is written, and the amount covered. The good business man does not forget that his property may go next. He does not expose himself to a crippling loss.

"THE LIGHT OF THE WORLD

OR OUR SAVIOUR IN ART"

Cost over \$100,000 to publish. Contains nearly 200 full-page engravings of our Saviour, by the great masters. Every picture is a reproduction of some famous painting. Agents are taking from three to twenty orders per day. The book is so beautiful that when people see it they want it. The Hermitage, Prado, Uffizi, Pitti, Louvre, Vatican, National of London, National of Berlin, Belvedere and other celebrated European galleries have placed their greatest and rarest treasures at our disposal that they might be engraved for this superb work. "FIRST GLANCE AT THE PICTURES BROUGHT NEAR TO MY EYES," says one. "I cleared \$150 first week's work with the book," says another. "Some high grade man or woman should secure the agency here at once," says every editor, "as \$500 can soon be made taking orders for it." Nearly \$10,000 expended on new plates for edition coming from press. Also a man or woman of good church standing can secure position of Manager and Correspondent of this territory, to devote all his time to engravings and selling agents and corresponding with them. Address for full particulars A. P. T. ELDER, Publisher, 278 Michigan Avenue, Chicago, Ill.

EVENING GOWN.

straw braid is in turn made of strands of straw, chip and chenille, or is all straw, or is chip and straw. These coarse braids are to be much used and are shown in black, white and solid colors, as well as in mixed tints. A mauve hat of this sort is trimmed with mauve satin and purple violets, a green one with white lace, black velvet foliage and pink roses.

Sash belts are to be a feature of summer gowns. Generally they are of satin or faille of a darker color than the rest of the toilet, and often they are black. The portion which encircles the waist may assume the form of a corset or may be simply a narrow ribbon. The long ends which fall upon the skirt at the back are plain or are bordered by a ruche or a plaiting of satin or mouseline de soie. Sashes of this description are often accompanied on the new models by a bretelle trimming to match for the bodice, and this arrangement constitutes an almost exact revival of a decoration favored many years ago.

Mouseline de soie is more and more employed in trimming. Gowns for house, street, reception and ball wear are all decorated with it in the form of plaitings, ruffles, ruffles or puffings.

The picture illustrates an evening gown of pink silk, the foot of the skirt being adorned with three ruffles of pink mouseline de soie, forming points and a flounce of the same goods. The décolletage of the blouse bodice is bordered with a bertha of mouseline with a puffed heading. Puffs of mouseline form the sleeves, and the rest of the trimming consists of pink satin bows and a long scarf of mouseline knotted at the left side. JUDIC CHOLLET.

TOILET HINTS.

Care of the Clothes, the Complexion, the Hands and the Eyes.

The décolletage for young girls is properly very slight and is round or square. No jewelry to speak of is permissible, although a string of pearls, not large, may be worn or a fine gold chain with a pearl, turquoise or little sapphire pendant.

Shoes last longer if they are allowed to rest from use on alternate days. Two pairs worn interchangeably will be more durable than will two pairs each worn continuously until they are gone. Also the shoes should be changed when the wearer comes in from the street and should be brushed free from dust and allowed to air before they are put away. Glycerin is

an excellent dressing for French kid shoes, while for patent leather sweet oil is preferable.

Cold water should not be used for the face, especially when the skin is flushed and heated. Warm water will cool the complexion quite as well and will do it no injury. In cases of sunburn cold water is particularly harmful, as it causes the skin to peel off, whereas when hot water is employed this disagreeable condition may often be entirely avoided.

Parsley water is recommended as excellent for the complexion, and an infusion of the flowers of the saponaria is said to be equally efficacious.

The Dear Child.

Little Tommie—Sister Lillian likes to have you come here.
Mr. Simperling—Aw, indeed! How do you know that?
Little Tommie—Well, people always like what makes them glad, don't they?
Mr. Simperling—Generally. How do you know I make her glad?
Little Tommie—I heard her tellin' one of the other girls to-day that she just had to laugh every time she looked at you.—Cleveland Leader.

Her Guilty Conscience.

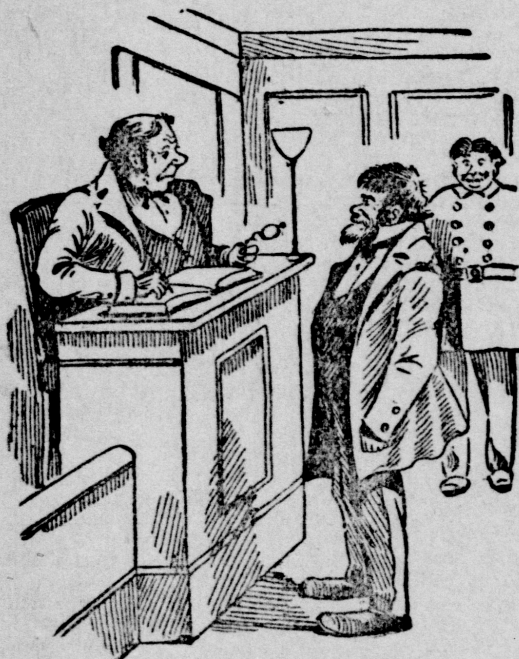

Mrs. Mumley—And so you have decided to withdraw from Dr. Brierly's church?
Mrs. Weeds—Yes, he insulted me, at my husband's funeral.

Mrs. Mumley—Insulted you at your husband's funeral? Oh, surely you must be mistaken.

Mrs. Weeds—No! He said my poor James had gone to a happier place and would surely not wish to return to this world, even if he could.—Chicago Daily News.

An Exception.

No song is sweeter as "Home, sweet home"—That is, provided that the person who is singing it is not a diplomat.—Washington Star.

AN HONEST CONFESSION.

Judge—How is it that you have changed your original plea of guilty to one of not guilty?

Prisoner—Since then, your honor, I have engaged a lawyer, and he put me up to lying.—N. Y. World.

She Needs Sympathy.

When I overhear two women talk, Though it may seem absurd, I always feel quite sorry for The poor dear absent third.—Chicago Daily News.

Practical Experience.

Landlady—That new boarder is either married or a widower.
Daughter—Why, ma, he says he's a bachelor.
Landlady—Don't you believe he is. When he opens his pocketbook to pay his board he always turns his back to me.—Chicago Daily News.
